

MANZANAR STUDENT RELOCATION COMMITTEE
REPORT FOR COLLEGE STUDENTS

Persons Affected

Any student who would have planned to be in college during the fall semester of 1942, if there had been no evacuation. This includes both those who wish to attend some Midwestern or Eastern college and those who wish to complete courses here at Manzanar.

Official Questionnaire

The National Student Relocation Council is responsible for directing the program of student relocation. This program has been wholly approved by the Department of War. The organization is responsible to Mr. Clarence Pickett of the American Friends Service Committee and through him to Mr. Dillon Myer of the War Relocation Authority.

Possibilities of Transfere

Any student, whether a high school graduate intending to enroll in the fall, or college undergraduate or graduate, may apply for college transfer. This includes persons who wish to complete special fields of study, as in educational methods of nursing. However, the immediate possibility of transferring students to mid-western or eastern colleges depends upon acceptance of students into schools of their choice and possession of adequate funds for at least the first semester.

All efforts are being made by the National Council to relocate as many students as possible. For obvious reasons it will not be able to secure funds and openings for all applicants. Where scholarships and placements through the Council are available, some selection will be necessary. That selection will be based on scholastic promise, on personal adaptability, industry, and leadership. The Council will assist students where necessary, after their arrival in college communities.

Manzanar's educational system does not include a program for college level persons, it is hoped that through this questionnaire the needs and desires of students unable to attend schools be gauged. Some plan may be evolved in the future whereby extension courses may be established in Manzanar.
